## **DETAILED ACTION**

### ***Response to Amendment***

1. Claims 16-33 have been cancelled. Claims 1-15 are pending.

### ***Oath/Declaration***

2. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

It does not state that the person making the oath or declaration acknowledges the duty to disclose to the Office all information known to the person to be material to patentability as defined in 37 CFR 1.56.

Applicant's Declaration incorrectly states, "I acknowledge the duty to disclose information which is material to the examination of this application in accordance with 37 C.F.R., Section 1.56" (emphasis added to indicate the error).

### ***Response to Arguments***

3. Applicant's arguments, see Remarks, pp. 5-6, filed 23 October 2007, with respect to the rejections of claims 1-15 under 35 U.S.C. 102(b) as being anticipated by Hatke et al, U.S. Patent No. 5,206,807 A have been fully considered, and are persuasive. The rejections of claims 1-15 have been withdrawn.

***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

4. Claims 1-15 rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The claims are directed to a manipulation of abstract ideas, i.e. data related to a parameter. See MPEP § 2106.

***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The other patents cited in the PTO-892 teach subject matter related to the Applicant's claims. The Examiner suggests reviewing these patents before responding to the present Office Action.
